

Technological University (Mandalay)

Department of Engineering Physics

Department of Engineering Physics

To provide the student with a clear and logical presentation of the basic concepts and principles of physics and to strengthen an understanding of the concepts and principles through a broad range of interesting real-world application. The Department of Electronic Engineering has been established since the Government Technical Institute, Mandalay was opened in 1955. Department started Under Graduate program in the year 1995 and the Post-Graduation Programme was started in the year 2008. Therefore, Department of Electronic Engineering of TU is 63 years old in engineering education service.

Motto

“Only when there is discipline, will there be progress.”

Vision

To teach and train engineering students in each section of theory and experiment of engineering physics subject in supporting to become the essential technological experts for socio-economic development.

Mission

- To provide the highly qualified engineers with a clear and logical presentation of the basic concepts and principle of physics.
- To educate and train students of high caliber and quality that can emerge excellent engineers systematically.

Degree Awards

မရှိပါ

Laboratories & Workshops

Room (201) - Mechanics Lab

Room (202) - Electronic Lab
